

TWGGGA PAC Contribution Guide

Your PAC committee has developed a fair method to guide your contributions. Please take a moment to review the recommended contribution computation and give the suggested amount.

The recommended contribution amounts are estimated based on annual contributions and are estimated based on gallons produced by wineries (\$.11 per gallon) and tons of grapes produced by vineyards (\$15 per ton). The recommended minimum annual contribution is \$1,200.

Vineyard/Winery Size	Recommended Annual Contribution
Emerging Commercial Vineyard	\$1,200
Emerging Commercial Winery	\$1,200
Small Commercial Vineyard (1-19 acres, est. based on 5 tons per acre)	\$1,200-\$1,400
Small Commercial Winery (Under 3,000 gallons/year)	\$1,200-\$1,400
Medium Commercial Vineyard (20-59 acres, est. based on 5 tons per acre)	\$1,500-\$4,425
Medium Commercial Winery (3,000-19,000 gallons/year)	\$1,500-\$2,090
Large Commercial Vineyard (60+ acres, est. based on 5 tons per acre)	\$4,500+
Large Commercial Winery (20,000+ gallons/year)	\$2,200+
